

1 **(April 3, 2006)**

2 ***Submittals***

3 Prior to beginning any concrete work, the Contractor shall submit a plan, for the
4 Engineer's review and approval, outlining the procedures to be used to prevent high pH
5 stormwater or dewatering water from entering surface waters. The plan shall include
6 how the pH of the water will be maintained between pH 6.5 and pH 8.5 prior to being
7 discharged from the project or entering surface waters. The plan shall conform to the
8 requirements of Section 8-01.
